<p><b>08:45 - 09:15</b></p>	<p><b>From fundraising to ongoing support: rethinking the hospice supporter journey</b></p> <p><i>Kindly supported by Social Sync</i></p> <p>For many hospice supporters, fundraising is not just a transaction. It can be connected to memory, gratitude, community, family experience, or a deeply personal moment of care.</p> <p>In this interactive breakfast session, Social Sync will be joined by Laura from Rennie Grove Peace Hospice to explore how hospices can think differently about the supporter journey after someone signs up, fundraises, donates, volunteers, or takes part in memory of someone they love.</p> <p>Through a short hospice-sector perspective and a table-based workshop, delegates will consider how different supporter relationships can be stewarded over time with greater relevance, sensitivity and continuity. The session will look at where relationships often become fragmented, how data and timely stewardship can help, and what fundraising leaders should consider when building</p>

	<p>more meaningful long-term supporter journeys without adding more manual work for already stretched teams.</p> <p><b>Speakers:</b></p> <ul style="list-style-type: none"> <li>• Stefen Fowler, Growth Manager, Social Sync</li> <li>• Ben Collins, Chief Operating Officer, Social Sync</li> <li>• Lee Sumner, Growth Manager, Social Sync</li> <li>• Laura Elliott, Head of Supporter Fundraising, Rennie Grove Peace Hospice</li> </ul>

**Session 5 - Future of giving: the changing landscape of grant funding**

The philanthropic landscape is shifting. Increasingly, foundations are recognising that flexible, unrestricted funding is not only more responsive to emerging needs, but also critical to building resilient, high-impact organisations. Alongside this, there is a broader cultural shift towards trust-based philanthropy and deeper, more meaningful partnerships with grantees.

In a fast-moving hospice sector, shaped by a rapidly changing political and funding environment, there is a growing question: how can grant funding models become as agile and responsive as the charities they aim to support?

In this session, you'll hear directly from leading grant funders as they share what matters most to them, how their thinking is evolving, and how approaches to funding are changing. We will explore the move towards more flexible funding models, alongside the continued need to demonstrate impact and accountability.

**Speakers:**

- Laura Serratrice, Chief Executive, James Tudor
- Martina Nertney, Grants Manager, St James' Place Foundation
- TBC - speaker to be confirmed

**Headline sponsor session - Transforming hospice fundraising: from fragmented systems to connected care experiences**

*Kindly supported by ForGood.Tech*

Join ForGood.Tech CRM experts Adam Wall and Adam Sheehan for a 30-minute session exploring how hospices can move from fragmented fundraising approaches towards more connected, personalised supporter experiences. The session will touch on common challenges such as disconnected systems, siloed data, and manual processes, and consider how a more joined-up approach can better support both fundraising and care delivery.

You'll gain a high-level view of how connected technology can bring supporter and service user data together- enabling more meaningful engagement, improving efficiency, and helping teams deliver more informed, compassionate, person-centred care.

**Session 6B - How to support fundraisers with professional grief**

The Hospice UK Compassionate Employers team are coming together with Sobell House Hospice to run this workshop exploring professional grief and how we look after ourselves in emotionally demanding roles.

If you work in fundraising, marketing or communications in a hospice, you'll probably recognise that the emotional side of the role isn't always spoken about. You might be sharing families' stories, writing about loss, meeting people at incredibly vulnerable moments, or carrying memories that aren't your own, but still stay with you.

In this session, we will spend some time unpacking what professional grief can look like for those of us who aren't on the clinical frontline but are still closely connected to the realities of hospice care. We will talk about how this kind of grief can build over time, how it can affect your energy and wellbeing, and why it's completely natural to feel its impact.

There will be space to reflect, share with others, and explore practical ways to look after

		<p>yourself and each other, so you can carry on doing this important work with support and compassion.</p> <p><b>Speakers:</b></p> <ul style="list-style-type: none"> <li>• Lucy Carpenter, Compassionate Employers Lead, Hospice UK</li> <li>• Srinder Singh, Bereavement Care and Voluntary Services Lead, Sobell &amp; Katharine House Hospices</li> </ul>
